Categories: Design, delivery and/or evaluation of EE / EfS

Description:

Molino Stewart is an established environmental consultancy based in Parramatta, Sydney. It offers a broad range of services in EE / EfS based on its extensive experience and research into best practices.

The Molino Stewart education team is led by Neil Dufty who has over 30 years experience in developing, implementing and evaluating EE / EfS programs for a broad range of clients including government agencies, local councils, businesses and non-government organisations.

Neil is ably supported at Molino Stewart by other staff including Ross Wellington, a recognised expert in biodiversity education.

Molino Stewart has gained particular acclaim for its work in developing regional EfS plans, preparing EfS teaching resources, implementing community EE programs and facilitating EfS forums. It has also evaluated several national and state-wide EE / EfS programs.

Syd Smith

25a Finlay Rd

Turrumurra NSW 2074

Ph: 02 9402 8464 / 0417 282 576

Categories: Professional Development Services; Design, delivery and/or evaluation of EE / EfS

Description:

As a former manager of Environmental Education programs in NSW schools for the NSW Dept of Education and Training I introduced, in partnership with the Dept of Environment and Climate Change, the Sustainable Schools Program and promoted it overseas in Europe and Thailand. I led the team to write the NSW Policy on Environmental Education, ran workshops, helped set up school partnership initiatives for Hornsby Council, wrote the education strategy for Centennial Parklands, conducted workshops in NT and presented to various groups in the ACT and SA. I have worked in curriculum development and with local communities for over 20 years and with an excellent knowledge of overseas developments recently played a leading role in a sustainability exchange between schools in NSW and India. We have recently designed Climate Change workshops for schools and communities. I have evaluated numerous curriculum programs including liaising with the team who evaluated the Sustainable Schools Program in NSW. I have worked with local councils and schools, evaluating their sustainability programs and providing advice on their strategic plans. I have been employed to design and deliver EE and EfS programs in Thailand and assisted in developing the strategic plan of the ENSI group in Europe. I also made valuable inputs to the National Environmental Education Statement and to the National Environmental Education Network.

Dr Margaret Gooch

Lecturer, School of Education

James Cook University

Ph: 07 4781 4946

Category: Design, , delivery and/or evaluation of EE / EfS

Description:

Dr Margaret Gooch is with James Cook University in Townsville, Queensland. She has a background in environmental education and natural resource management. She began her career as a high school teacher, and then worked with the Queensland Parks and Wildlife Service (QPWS) as a community education officer. Margaret has published in the areas of environmental education and NRM volunteers. She is currently conducting research for the Marine and Tropical Sciences Research Facility (MTSRF) on the development of indicators of social resilience to changes in water quality.

Grahame Collier

T Issues Consultancy

PO Box 728

Balgowlah NSW 2093

Ph: 02 9948 8243 / 0419 148 551

E-mail: tissues@acay.com.au

Website: www.tissues.com.au

Categories: Professional Development Services; Design, delivery and/or evaluation of EE / EfS

Description:

As a trainer Grahame Collier is highly experience, innovative and values and promotes interaction among all participants. All training is developed to meet specific objectives that are negotiated with the client and it is fully evaluated.

Grahame delivers professional development in a number of areas relating to sustainability – behaviour change, evaluation and education program development and design. Because of his extensive public health and environment background Grahame brings a breadth of content to all training programs.

Grahame's clients include professional associations, local government, state government agencies at the regional and state wide levels, businesses and community organisations. The T Issues Consultancy website www.tissues.com.au provides further details of some of Grahame's training experience. Often training is co-facilitated with other sole traders.

Design, delivery and/or evaluation of EE / EfS:

A highly experiences educator, education programs manager and consultant, Grahame Collier provides high quality strategic services to clients who are designing, delivering or evaluating their education and training programs. A broad range of experience in public health and environment at the international, national, state and regional levels mean that Grahame can support clients as large as the World Health Organisation and as small as local community groups. No job is too small and all projects are approached with the same level of enthusiasm and commitment. Grahame's understanding of the challenges of addressing sustainability are highly valuable to his clients.
