

SEAWEEK DRAWING COMPETITION 2022

*Ocean Literacy #7:
The ocean is largely unexplored.*

SEARCH

SeaWeek 2022 is all about our SEARCH – what will YOU discover?

Draw in the circles, suggested in the capital letter S, what you have observed in or near a water body. This could be in the ocean, rockpool, a river, a pond or an aquarium. You will need an adult to help to explore these water bodies!

Some of you may be divers looking through masks or goggles, or portholes at an aquarium. You may be using a magnifying glass. You can draw the flora and fauna in separate circles.

Extension: Research the scientific identification classification for one of your specimens.

Scan and send your finished drawing to SeaWeek at seaweek@aaee.org.au
